GBC are keen to encourage local celebrations and will be waiving fees for any road closures needed for street parties. They will also be providing free party packs (bunting and flags) for the first 50 events of which they are notified. This will be publicised in the next couple of weeks, together with guidance and tips on organising street parties. Feb/Mar	Various correspondence on the village email concerning the imposition of a 20mph speed limit (largely in favour) , the position of the planned VMS sign (various views on position), information on 'near misses' and the petition on the SCC website	TP
1Mar	Email from Robyn Cormack commenting on the above correspondence noting that of the reported accidents in the village in 2014 and 2015 the majority listed are slight, with a few serious and not a single accident is reported at either the Station, nor the pinch point at Summers. Requested reports of "near misses" from residents are not helpful, as near misses will carry no weight with SCC Highways or Police, and can only make the village case for action look amateur and lack credence. We need a solid case based on hard facts alone.	TP, CD
1 Mar	Letter from Robyn Cormack commenting on correspondence on the village email making the following points: <ul style="list-style-type: none"> • The most dangerous accident point in the village is the A3 junction with Clandon Road • Near misses are note accidents • The sight lines on the approaches to the station are good • 30mph is considered by SCC and the Police as a safe limit and the 	TP

	main issue is enforcement.
